CAREER OBJECTIVE

Motivated and detail-oriented Computer Science undergraduate at Angadi Institute of Technology and Management, seeking a challenging placement opportunity to apply skills in software development, web technologies, and database management. Eager to contribute to innovative projects and grow within a dynamic engineering team.

EDUCATION

B.E. in Computer Science and Engineering

Angadi Institute of Technology and Management | Belagavi, Karnataka | 2023 – 2027

CGPA: 7.70/ 10.0

Pre-University (12th) – Science (PCM + CS)

Board / School: Karnataka Board | 88% | 2021

TECHNICAL SKILLS

Programming Languages

- Python – fundamentals, file handling
- Java – fundamentals, OOP, Collections, Exception Handling,
- C / C++ – Fundamentals

Web Development

- Frontend: HTML5, CSS3, JavaScript (ES6+), Bootstrap, Responsive Design
- Backend: Node.js (Express), REST APIs
- Frameworks / Libraries: React.js, express.js

Database & Cloud

- SQL – basics
- NoSQL – MongoDB
- Cloud – AWS (EC2, S3 basics), supabase

Tools & Platforms

- Version Control: Git, GitHub
- IDEs: VS Code, jupyter notebook
- OS: Windows

PROJECTS

Mental Health Peer support System

- Developed a full-stack **mental health peer support platform** enabling users to connect with peers, share experiences, and access supportive resources in a safe environment.
- Implemented **user authentication, profiles, posts/discussions, and peer interaction features** using React, Node.js, Express.js, and MongoDB.
- Designed a **responsive and user-friendly interface** focused on privacy, accessibility, and creating a supportive digital community.

Personal Portfolio Website | Tech: *HTML, CSS, JavaScript, Bootstrap*

- Developed a fully responsive portfolio website to showcase academic projects and skills.
- Integrated smooth scroll, animations, and a contact form using EmailJS API.
- Deployed on GitHub Pages with CI/CD via GitHub Actions.

Mountaineer portfolio Tech: *React js*

- Developed a responsive **mountaineer portfolio website** showcasing climbing achievements, expeditions, skills, and personal experiences through an immersive visual interface.
- Designed interactive **expedition and achievement sections** with modern layouts, animations, and responsive UI for an engaging user experience.
- Built and optimized the website using **React, JavaScript, Tailwind CSS, and modern web design principles** for cross-device compatibility.

Movie recommendation and review website | Tech: *react, TMDB api, node js*

- Built a full-stack web app to track daily expenses with categorization and visual analytics.
- Used Flask REST API on the backend with SQLite for persistent storage.
- Generated interactive bar and pie charts for spending pattern analysis using Chart.js.

INTERNSHIP / EXPERIENCE

Web Development Intern | *Monster Labs (Startup)* | Remote / Belagavi | *Jan 2024 – Apr 2024*

- Contributed to the design and development of client-facing websites for a web design studio.
- Built responsive landing pages and UI components using HTML, CSS, and JavaScript.
- Collaborated with team members on brand identity and visual design for 3 client projects.
- Optimized website performance, reducing load times by approximately 30% through lazy-loading and image compression.

CERTIFICATIONS

- Python for Everybody – Coursera / University of Michigan
- The Web Developer Bootcamp – Udemy
- SQL and Relational Databases – IBM (Cognitive Class)
- Java Programming Masterclass – Udemy
- AWS Academy Cloud Foundations – Amazon Web Services

SOFT SKILLS

Problem Solving • Team Collaboration • Communication • Time Management • Adaptability • Quick Learner

DECLARATION

I hereby declare that all the information provided above is true and correct to the best of my knowledge and belief.
