PRADEEP NAGARAL

B.E. Computer Science | Angadi Institute of Technology and Management
Email: pradeepnagaral4@email.com | Phone: +91 7259822365 | LinkedIn: pradeep-nagaral | GitHub: pradeepnagaral123

CAREER OBJECTIVE

Motivated and detail-oriented Computer Science undergraduate at Angadi Institute of Technology and Management, seeking a challenging placement opportunity to apply skills in software development, web technologies, and database management. Eager to contribute to innovative projects and grow within a dynamic engineering team.

EDUCATION

B.E. in Computer Science and Engineering — Angadi Institute of Technology and Management, Belagavi, Karnataka | 2023 – 2027 | **CGPA: 7.70 / 10.0**
Pre-University (12th) – Science (PCMB) — Karnataka Board | 88% | 2021

TECHNICAL SKILLS

Languages	Python (fundamentals, file handling); Java (fundamentals, OOP, Collections, Exception Handling)
Web Development	Frontend: HTML5, CSS3, JavaScript (ES6+), Responsive Design | Backend: Node.js, REST APIs
Frameworks / Libraries	React.js, Express.js, Tailwind CSS
Databases	SQL (basics); NoSQL – MongoDB
Tools & Platforms	Git, GitHub, VS Code, Jupyter Notebook; OS: Windows

PROJECTS

Mental Health Peer Support System | React, Node.js, Express.js, MongoDB
- Developed a full-stack peer support platform enabling users to connect with peers, share experiences, and access supportive resources in a safe environment.
- Implemented user authentication, profiles, posts/discussions, and peer interaction features.
- Designed a responsive, user-friendly interface focused on privacy, accessibility, and a supportive digital community.

Mountaineer Portfolio | React.js, JavaScript, Tailwind CSS
- Developed a responsive portfolio website showcasing climbing achievements, expeditions, skills, and personal experiences through an immersive visual interface.
- Designed interactive expedition and achievement sections with modern layouts and animations; optimized for cross-device compatibility.

Movie Recommendation and Review Website | React, Node.js, TMDB API
- Built a web platform to discover, explore, and review movies across genres and languages, integrating movie data APIs for details, ratings, posters, and descriptions.
- Implemented search, filtering, and personalized recommendation features within a responsive, user-friendly interface.

CERTIFICATIONS

Python for Everybody – Coursera | The Web Developer Workshop – Innomatics Research Labs | SQL and Relational Databases – Simplilearn | AWS Academy Cloud Foundations – Udemy

SOFT SKILLS

Problem Solving • Team Collaboration • Communication • Time Management • Adaptability • Quick Learner

DECLARATION

I hereby declare that all the information provided above is true and correct to the best of my knowledge and belief.
